Dear Alumni, Family, and Friends of Dartmouth,

We invite you to witness one of the greatest feats of the modern age — the Panama Canal, a stunning example of engineering prowess. During a specially arranged and narrated daylight transit, experience the mighty locks that raise and lower ocean-going vessels 85 feet, employing the force of gravity to achieve in mere hours what once involved a three-week circumnavigation of South America.

This 9-day, 8-night itinerary also showcases Earth's most pristine ecosystems in the rainforests and islands of Costa Rica and Panama at the best time of year. Cruise aboard the exclusively chartered, first-class *Wind Star*, a sleek, four-masted sailing vessel accommodating only 148 guests. Anchor in secluded areas inaccessible to larger vessels, and enjoy a variety of included excursions led by experienced onboard naturalists.

Tour the stunning and biodiverse Manuel Antonio National Park, where guides will lead a trail walk through an ecosystem of rare species. Snorkel or hike the spectacular Isla Parida with its astounding range of wildlife.

Enhance your journey with the optional Arenal and San José Pre-Extension option. This amazing program will fill up fast. Reserve now while space and Special Savings are available!
