DEAR ALUMNI, FAMILY, AND FRIENDS OF DARTMOUTH,

Alaska, once known as Seward’s Folly and little valued, now tops the list of travelers who seek genuine wilderness. Come explore and discover the authenticity of the region with unparalleled experiences in this capital of wildness. Lindblad Expeditions’ years of experience is your key to enjoying the most in-depth and engaging encounters. They know the protected coves where sea otters congregate, the river rapids where bears fish for salmon, and the rich channels where whales feed. You’ll hear the thunderous crack of a calving glacier dropping ice hundreds of feet into the sea, hike the spongy trails of old-growth forests, and watch eagles fly low over quiet inlets.

Explore on the 50-cabin National Geographic Venture, and discover Alaska’s wildness in a way only a few do. A nimble, shallow-draft expedition ship allows us to access secluded areas larger vessels simply cannot reach. The ship is equipped with a complete suite of exploration tools: Zodies, kayaks, and paddleboards to enable you to get out there for up-close personal discoveries. Plus there’s a hydrophone, underwater video camera, and more to make your whale-watching experiences even more memorable.

And now you can experience Alaska with all your senses thanks to the culinary team aboard ship. Much of the food prepared is sourced locally from sustainable providers, with ingredients and flavors that reflect the area’s wild bounty. Plus with unassigned seating, mealtimes are more than opportunities to eat well; they are also a chance to join naturalists, ship’s officers, and fellow Lindblad guests to engage in stimulating conversation and gain insight into the nature and culture of the region.

The expedition team is unrivaled in their knowledge of and experience in Alaska, and will ensure that you see, do, and learn more than you ever imagined possible. Share the adventure with an experienced team of naturalists who will not only accompany you on Zodiac cruises and hikes through forests, but will also introduce you to the surprising Alaska undersea. And a certified photo instructor is at your side and at your service to help you take your best photos ever.

We hope you will join the exploration! To reserve your space, please return the reservation form or call our group representative at Lindblad Expeditions toll free at 888-773-9007.

Sincerely,

EXPERIENCE ALASKA EXPEDITION STYLE

Drawing on many years of experience exploring Alaska and a network of knowledgeable insiders, our voyage will connect you to the region in a way you never thought possible. A perfectly sized ship takes you deeper inside where you’ll discover authentic Alaska—the majestic bears, breaching humpbacks, old-growth forests, calving glaciers, inaccessible vistas, and true Alaska towns. Along the way, veteran naturalists will illuminate every facet of your expedition, providing expert commentary and spotting wildlife so you don’t miss a thing. And not being tied to port times means we have the flexibility to stop and linger should we happen upon a pod of humpback or killer whales—giving you a front-row seat to the powerful, often unexpected, moments only nature can provide.

THE RICHEST WILDLIFE-WATCHING EXPERIENCE

*National Geographic Venture*’s experienced captain and expedition staff know where to find iconic wildlife. Their knowledge and connections with area locals, such as the Alaska Whale Foundation, means we know when to be “there” when humpback whales are—creating amazing observation and photo ops. Researchers from the Alaska Whale Foundation come aboard to share their knowledge and latest findings, and to provide insight into humpback behavior. The naturalists may also drop a hydrophone to reveal whale communication. You can even observe the wild undersea, as the undersea specialist dives to shoot video of the otherworldly creatures or deploys the Remotely Operated Vehicle (ROV), which you’ll see on TV screens from the comfort of the lounge.

THE PERFECT PLATFORM TO DISCOVER WILD ALASKA

The National Geographic Venture is purpose-built for exploring regions like remote Southeast Alaska. A nimble design allows you to sail into spectacular winding fjords and shallow, fast-moving channels where whales feed. You’ll travel in comfort aboard a new 50-cabin expedition ship carrying 100 guests. Share the thrill of spotting diving humpbacks or bears foraging along the shore from the expansive bow—and use onboard tools for deeper exploration. A fleet of Zodiaks ensures quick access from on board to shores untouched by tourist infrastructure. Single and tandem kayaks and stand-up paddleboards let you paddle in quiet coves or venture into wind- and water-carved caves.

ACTIVELY EXPLORE EVERY DAY & IN EVERY WAY

Every day brings new adventure and an array of active options. Start your morning with an energizing hike through a lush, towering forest, or choose a slower walk, with time for your naturalist to share the unique wonders of the native flora. Later on, observe a calving glacier by Zodiac, try your hand at stand-up paddleboarding, visit a typical Alaska town, or kayak along wildlife-rich shorelines keeping watch for swooping bald eagles and gregarious sea lions. When you prefer, stay aboard to read or enjoy a wellness treatment in the spa. There’s never one-size-fits-all scheduling here; choose your activities at whatever level and staff members to join daily.

SHARE YOUR EXPEDITION WITH THE BEST TEAM

Learn, see, and do more by exploring with experts who know the region best. Share the adventure with a team of naturalists, an undersea specialist, a certified photo instructor, an expedition leader, and a video chronicler. Since personal attention is important, you explore with one staff member for every ten guests, the best naturalist-to-guest ratio in Alaska. And you’re able to gravitate towards individuals whose interests mirror your own—photography, the undersea, whales, botany, or something different daily. Benefit from a variety of expertise, perfectly sized groups on hikes, diverse perspectives, and engaging personalities.

CERTIFIED PHOTO INSTRUCTOR, AT YOUR SIDE & AT YOUR SERVICE

A certified photo instructor travels with you throughout your voyage. He or she is on board and in the field to assist with your camera settings, the basics of composition, and much more. Not only is the instructor an excellent photographer, more importantly, he or she is also a naturalist who can teach you how to observe and understand wildlife behavior so you aim at just the right time and place for a great shot. Now everyone, at every skill level, can go home with shots they’re proud to share.

EXPLORING ALASKA’S COASTAL WILDERNESS
8 DAYS/7 NIGHTS—ABOARD NATIONAL GEOGRAPHIC VENTURE

Experience the remarkable beauty of Southeast Alaska on a voyage aboard a 50-cabin expedition ship into a land of mist-shrouded fjords, tidewater glaciers, and islands teeming with wildlife. Search for killer whales and humpback whales, kayak amid glacial ice, spend a full day exploring Glacier Bay National Park and learn about Alaska’s rich Tlingit heritage.

DAY 1: SITKA, ALASKA/EMBARK
Arrive in Sitka, Southeast Alaska’s only oceanfront town, visit the Raptor Rehabilitation Center and get close-up views of species normally seen at a distance. Embark the ship and settle into your cabin before a welcome dinner. (D)

DAY 2: SOUTHEAST ALASKA’S ISLANDS, BAYS, AND FJORDS
Today, nature is your guide. You may explore an isolated beach to take a closer look at tide pools, beachcomb, hike stunning forest trails, or see bear tracks worn into the soil while walking in an isolated meadow. Sightings of bald eagles are very common. If conditions permit, you can do some kayaking, always watching for marine and terrestrial life. (B,L,D)

DAY 3: THE INIAN ISLANDS AND ICY STRAIT
Explore among the Inian Islands, where an abundance of Steller sea lions and sea otters reside. Search for marine mammals in the rich waters of Icy Strait and choose the perfect spot around Chichagof Island to hike and kayak. (B,L,D)
DAY 4: GLACIER BAY NATIONAL PARK
See glaciers that end abruptly at the water’s edge and possibly observe them “calving.” Wildness abounds—mountain goats roam the cliffs and brown bears patrol the shore; Steller sea lions and puffins live in the icy waters. A native Tlingit cultural interpreter joins us to share the lore and legend of the area. We will also be joined by a National Park Service Ranger. (B,L,D)

DAY 5: FREDERICK SOUND AND CHATHAM STRAIT
With luck, see whales breaching, tail-slapping, or feeding. Later, hike or kayak for up-close exploration. Explore spectacular bays and inlets, following bear trails and salmon streams. (B,L,D)

DAY 6: PETERSBURG
Search for humpback whales as we head to the small, true Alaskan town of Petersburg. Explore a unique Southeast Alaskan ecosystem, the “muskeg,” with stunted trees and carnivorous plants. Stretch your legs with an optional bike ride around town before enjoying a crab feast this evening. (B,L,D)

DAY 7: TRACY ARM-FORD’S TERROR WILDERNESS
Voyage into Tracy or Endicott Arm, both spectacular fjords with waterfalls cascading from glacially carved walls. See the soaring Dawes or South Sawyer Glacier up close, and take a cruise in a Zodiac for an unbeatable view of sculpted icebergs. Keep an eye out for harbor seals, porpoises, and arctic terns. (B,L,D)

DAY 8: JUNEAU/DISEMBARK
Disembark this morning in downtown Juneau. Take time to visit the local shops before exploring the Alaska State Museum, with its sprawling collection of natural history and cultural artifacts. Transfer to the airport for connecting flights home. (B)

Please note: All day-by-day descriptions are a sampling of the places we intend to visit, conditions permitting. Your expedition leader and captain will share your handcrafted itinerary once on board. Please be aware we have made slight modifications to our 2021 Summer Season itineraries in accordance with our COVID-19 protocols. Please call for details.

EXPLORE TONGASS NATIONAL FOREST
A Forest Service Special Use Permit for Tongass National Forest enables us to hike and kayak in wild and remote areas of Southeast Alaska.
NATIONAL GEOGRAPHIC VENTURE

CAPACITY: 50 outside cabins accommodating 100 guests.  
REGISTRY: United States. OVERALL LENGTH: 238 feet.

*National Geographic Venture* is the latest addition to the Lindblad-National Geographic fleet in Alaska. Designed with over 50 years of expedition heritage and built in the U.S.A., the ship sets a new standard in exploration comfort and style.

PUBLIC AREAS: Global gallery; fitness center; LEXspa; lounge with full service bar and facilities for films and presentations; observation deck; mudroom with lockers for expedition gear, and a partially covered sundeck with chairs and tables. The open Bridge provides guests an opportunity to meet the officers and captain and learn about navigation.

MEALS: Served in single seatings with unassigned tables for an informal atmosphere and easy mingling. Breakfast is a wide-selection buffet, and lunch is often served family-style. Cuisine is fresh, sustainable, and accented with regional flair.

CABINS: All cabins face outside with windows or portholes, private facilities, and climate controls. Category 4 cabins have step-out balconies.

EXPEDITION EQUIPMENT: A fleet of 8 Zodiacs and 24 kayaks, paddleboards, Remotely Operated Vehicle (ROV), hydrophone, splash-cam, underwater video camera, and video microscope.

SPECIAL FEATURES: Guest Wi-Fi access, elevator, certified photo instructor, undersea specialist, video chronicler.

WELLNESS: The vessel is staffed by a wellness specialist and features a gym with an elliptical machine, treadmill, exercycles, handweights, and resistance bands. Treatments in the LEXspa are available by appointment.

SELF-DISINFECTING SHIPS: Lindblad Expeditions became the first self-disinfecting fleet with the rollout of the ACT CleanCoat™ system in 2019. This photocatalytic cleaning process activates when illuminated, continuously breaking down unwanted microbes such as bacteria, viruses, mold, and airborne allergens. The positive environmental impacts of this non-toxic, chemical-free system are many: less plastic in the supply chain and waste stream, and more than one million gallons of water saved annually. The system lowers our carbon footprint and creates a cleaner, healthier shipboard environment for guests and crew alike.
