Amazon River Expedition and Machu Picchu

Cruise aboard the Exclusively Chartered Expedition Vessel ZAFIRO
March 8 to 20, 2020

Dartmouth Alumni Travel
Dear Alumni, Parents and Friends:

Join us for an unforgettable, once-in-a-lifetime experience in the mysterious Amazon River Basin, Earth’s most biodiverse natural realm and largest rainforest ecosystem, coupled with the marvels of the awe-inspiring Machu Picchu, the legendary “Lost City of the Incas.”

The longest navigable river in the world, the Amazon—referred to as the Río Amazonas in Spanish—winds more than 4000 miles from its source in the Andes Mountains to the Atlantic Ocean. Our phenomenal natural history voyage begins aboard the deluxe, exclusively chartered ZAFIRO, an ideal small expedition river ship uniquely designed to be one of a limited number of passenger vessels permitted to navigate the remote tributaries of the Peruvian Amazon and the Pacaya-Samiria National Reserve, the largest wetlands refuge in the world. The ship cruises past the confluence of the Río Ucayali and Río Marañón, the inception of the Amazon River. The ship’s English-speaking naturalists will guide us through this fragile bionetwork to see endemic butterflies, pink river dolphins, squirrel-sized tamarins and enormous blooming water lilies. We will also visit local villages to gain insight into the culture and traditional way of life of the ribereños (indigenous Amazonian peoples).

Our unique expedition continues in the Sacred Valley of Urubamba, the cradle of the erstwhile mighty Inca Empire. The mountainous pastoral landscape is dotted with archaeological sites and rustic towns, brimming with culture as vibrant as the tapestries and ceramics crafted there. This wondrous valley connects Machu Picchu and the Inca capital, Cuzco (or Cusco), whose historic center has been designated a UNESCO World Heritage site. The Andean portion of our journey is underscored by a visit to Machu Picchu, lost to the world for over four centuries and now a UNESCO World Heritage site. It encompasses more than 200 archaeological treasures surrounded by emerald-green peaks which deftly obscured the citadel from human eyes for so many years.

The perfect complement to your Peruvian expedition is the Colonial Lima Pre-Program Option in the coastal capital’s historic center, a UNESCO World Heritage site. This outstanding small group expedition, co-sponsored by Smith College, is a great value and will sell out quickly. Reserve now while space and Early Booking Savings are available.

Warm regards from Hanover,

Lima/Iquitos/Nauta/Río Amazonas

Monday, March 9
This morning, fly to vibrant Iquitos, an important rubber boom city during the late 19th century that attracted thousands of immigrants who hoped to build their fortunes in the Amazon River Basin. After lunch in a local restaurant, walk through the Plaza de Armas and see the Casa de Fierro—or Iron House—designed by Gustave Eiffel for the International Exposition of Paris in 1889 and still considered one of the finest examples of civil architecture in Perú.

Transfer to Nauta and embark the Zafiro to begin your voyage of discovery into one of the world’s most remote regions. Gather on the ship’s Observation Deck and watch as modern civilization fades away and the ever-changing panorama of the Amazon River unfolds before you.

Enjoy the Captain’s Welcome Reception this evening.

Please note: Itinerary may vary based on wildlife sightings, water levels and navigability.

Río Amazonas/Río Ucayali/Río Marañón

Wednesday, March 11
Explore the Pacaya-Samiria National Reserve, the largest wetlands reserve in the world and a veritable avian paradise.

Listen for the white-throated toucan’s exuberant call, one of the hallmark sounds of the rainforest.

Watch for the sleek, spotted coat of the elusive jaguar as it slinks through the tropical rainforest.

Cover photo: Wind through the mysterious Amazon River aboard the deluxe Zafiro, the ideal way to explore the largest rainforest ecosystem on Earth.
This area is home to the endearing capybara—a large, semi-aquatic rodent endemic to South America—and a profusion of rare palms, orchids and other tropical plants. Watch for pink and gray river dolphins swimming alongside the boat.

After lunch, board a small river skiff in search of exotic wildlife, including toucans and saddleback tamarin monkeys, and marvel at the giant *Victoria amazonica* water lilies.

**Thursday, March 12**

Under the shade of the mystical rainforest canopy, enjoy a picnic breakfast while you watch for capped heron and wattled jacana dipping into nearby shallow waters. In this mysterious realm of lofty ceiba trees that reach as high as 200 feet, listen for raucous scarlet macaws chattering in the canopy and watch for trogons, puffbirds and tropical rails.

By special arrangement this afternoon, meet a local shaman, who will perform an Amazonian ritual and explain how the ribereños have used indigenous medicinal plants for centuries. Participate in a special tree-planting ceremony dedicated to ensuring the longevity of the rainforest.

This evening, search for elusive nocturnal creatures such as caimans and bats on a nighttime excursion into the Pacaya-Samiria National Reserve—a vast blanket of stars shines above you, impossibly bright this close to the equator.

**Río Marañón/Nauta**
---

**Friday, March 13**

Enter a virtually uninhabited portion of the Amazon where the river narrows. Board excursion boats and cruise along labyrinthine blackwater tributaries while the naturalists point out animal and plant life rarely detected by the untrained eye. Also on this excursion, try fishing for the famous red-bellied piranha.

This afternoon, stop in a riverside village for a demonstration on how to prepare Amazonian specialties, including *juanes*, a regional favorite of banana leaf wraps filled with chicken and rice. During a visit to another Amazonian village, learn more about the *riberenos*’ timeless way of life and special relationship with this remarkable environment.

Gather on the ship’s Observation Deck to enjoy a final evening of cruising the Amazon and a festive farewell as the sun sets over the lush flora of the rainforest.

Cradled by the soaring peaks of the Andes Mountains, the Inca citadel of Machu Picchu summons awe and wonder like few other places. Undiscovered for four centuries until American explorer Hiram Bingham unearthed the site in 1911, Machu Picchu was built in the 15th century as a summer retreat for the Inca emperor Pachacuti. Clinging to thickly forested slopes 8000 feet above sea level and tucked deep in the Sacred Valley, Machu Picchu’s remote location impeded Spanish conquest and adds to the site’s ethereal aura. Duly anointed with UNESCO World Heritage status and regarded as one of the New Seven Wonders of the World, Machu Picchu showcases the Incas’ engineering prowess and astronomical genius in a mosaic of mystical altars, complex aqueducts and granite steps unfathomably carved from escarpments. These stairs and andenes (agricultural terraces built into the mountainside), where llamas nonchalantly graze, lead to the site’s most symbolic structures, including the Temple of the Sun and Intihuatana, a large ceremonial stone used by Inca priests for astrological predictions. From the ancient citadel, traverse the lush Sacred Valley to the historic Inca capital of Cuzco, a UNESCO World Heritage site. See Baroque- and Renaissance-style churches alongside Inca temples, exemplifying the city’s fascinating mix of pre-Columbian and colonial influences, and visit the holy stone fortress of Sacsayhuamán on this comprehensive journey of immersion in the history, myths and legends of the ancient Inca Empire.

In Cuzco’s Plaza de Armas, see the 16th-century Jesuit church, one of the best examples of colonial Baroque style.
Explore the Amazon River and its tributaries, home to the Victoria amazonica giant water lily.
