ENCOUNTER FASCINATING WILDLIFE UP CLOSE

On an African safari, your guides have to work hard to ensure you’ll spot one of the often-elusive “big five” species. In Galápagos, chances are your naturalists will have to route you around the charismatic endemic species that cross your path, graze beside you, or take a nap pretty much anywhere they want. There’s always fascinating behavior to observe and learn about—courtship, nesting, raising young, feeding, defending territory, and more. And because Galápagos’ animals don’t fear humans, you’ll have a rare experience of closeness—literally and figuratively. You could visit Galápagos 50 times and see something new each time.

DISCOVER THE AMAZING GALÁPAGOS UNDERSEA

The Galápagos underwater is vibrant and as full of interesting creatures as the land. It’s half the experience, vital to your understanding. During your voyage, you will have many opportunities to snorkel. You’ll see acrobatic sea lions, Pacific green sea turtles, and passing penguins. You might swim amid white-tipped reef sharks or a cloud of colorful fish, or see a blue-footed booby plunge in to spear dinner. There’s complete snorkeling gear aboard, exclusively yours for the duration. You’ll also be able to cruise by glass-bottom Zodiac or view video footage, presented by the undersea specialist on the lounge’s 4K TV screens, to further enrich your understanding.

YOUR SHIP: THE KEY TO A GREAT EXPERIENCE

The National Geographic Islander II offers a 100% exploratory Galápagos experience. Begin and end each day in the welcoming atmosphere of your home away from home. Accommodating just 48 passengers in 26 suites, it’s as close to a private yacht experience as you can get, with the luxury of spacious all-suite accommodations and all the amenities you might expect on your own yacht. Spend time with your fellow travelers over a locally sourced and sustainable gourmet dinner in the elegant Yacht Club Restaurant, dine al fresco in the Patio Café, delve deeper into the fascinating ecosystems around you in the Science Hub, take a restorative yoga class with a wellness specialist, or cool off with a relaxing dip in the plunge pool on the open-air observation deck. With the freedom to explore at your own pace, you can spend as much time as you please enjoying all that National Geographic Islander II has to offer.

GUEST EXCLUSIVE: HOTEL DEL PARQUE

Set in a lovingly restored 19th-century building along the banks of the Río Daule, Hotel del Parque is a serene, tropical refuge. Enjoy exclusive after-hours access to the cobbled streets, exhibits, and lush gardens of Guayaquil’s Parque Histórico. Intimate and welcoming with a gracious golden-age aura, this elegant hotel, with 44 beautifully appointed rooms, makes a fitting bookend to your expedition aboard the National Geographic Islander II.
EXPLORINGE G A L Á P A G O S WITH THE FREEDOM TO ENJOY IT YOUR WAY

Each day you’ll enjoy a fresh destination plus all kinds of choices of what to do. Hike, paddleboard, kayak, snorkel, or hang out with your photo instructor. But should you decide to sleep in, have a slow breakfast, or get a massage, it’s your vacation. The schedule is flexible, and the itinerary more a function of what’s to see than where we need to be. You can choose your activity and your activity level. Go on a long hike, snorkel every time it is offered, or just relax on the beach and soak it all in—it’s your adventure. You’re free to explore the ship, and always welcome on the Bridge to meet the captain and officers.

TRAVEL WITH AN A+ EXPEDITION TEAM

Honed over 50 years, our expedition team has the knowledge and the passion for Galápagos that will kindle yours. They will do whatever it takes, from maintaining a lookout so you don’t miss a passing whale, offering an extra snorkel when sea turtles are congregating nearby, or pausing on a walk to witness the birth of a sea lion pup. They’ll help you see, do, and absorb all the extraordinary experiences.

You’ll have the benefit of a certified photo instructor at your side and at your service. He or she can help you with anything from camera settings to the basics of composition. Now, every guest—from smartphone camera users to advanced hobbyists—can stand side-by-side with skilled photographers, pick up tips in the field, and take great photos.

The positive environmental impacts of this non-toxic, chemical-free system are many: less plastic in the supply chain and waste stream, and more than one million gallons of water saved annually. The system lowers our carbon footprint and creates a cleaner, healthier shipboard environment for guests and crew alike.

SUSTAINABILITY: At Lindblad, we take responsible travel and sustainability to heart. For over 50 years we have used our expeditions to raise awareness and funds to protect our oceans, conserve wildlife, bolster local communities, enable meaningful scientific research, and create planetary stewards out of all of our guests to preserve our planet for future generations. We extend this philosophy to our guests by offering ways to offset your carbon emissions, committing to single-use plastic free travel experiences, and prioritizing your health and safety with self-disinfecting ships.
